Dear Mr. Hebert:

Through my ministry's Health Economic Development unit (HED), I have received news of your company's success in winning an international contract to implement an on-line computerized patient administration system that will link five public hospitals in Jamaica. As an Ontario-based health sector company providing this technical knowledge and training, the benefits accrue not only to the Ministry of Health in Jamaica in their pursuit of health reform, but also to Ontario's economy.

Congratulations to you and your staff at Heron Technology Corp. in this international achievement. I encourage you to continue to work with HED on health sector initiatives here in Ontario.

Please accept my best wishes.

Sincerely,
